MESSAGE FROM THE CHIEF

Chris Taylor

Thank you for taking the time to review the 2021 Campbellsville Fire-Rescue annual report. It is an honor to share with you the past years activities, run numbers, training hours and accomplishments.

The content of this report is designed to provide insight into how our efforts are focused on providing the highest level of customer-centered emergency services, while maintaining accountability and fiscal responsibility.

Our number one asset is our people. People that have taken any classes from me or hear me talk about our department know my focus is on special people, special training and special equipment. IF all those things are focused on, the community will be the beneficiary. The efforts demonstrated by each of our professionally trained and qualified members is top notch and I certainly appreciate all that our staff does day in and day out.

2021 has been the busiest year on record. This year has had plenty of challenges as well. I have witnessed some of the more serious incidents of my career in 2021. Particularly the past 3 months. However, our team has performed well and has absolutely saved several lives and property.

As we close out 2021 I want to thank City of Campbellsville and Taylor County Fiscal Court leadership for their continued support. Most importantly I want to say "Thank You" to our team members and also their families for the sacrifice and support throughout the year.

Chris Taylor
