

# SWIFTWATER OPERATIONS COURSE

Hosted by Campbellsville Fire-Rescue Special Operations

## Dates & Times:

- **March 14** – 1800 hrs (Classroom Session)
- **March 15** – 0900 hrs (Hands-On Training)

## Location:

Campbellsville Fire-Rescue Training Facility Station 3  
130 Trace Creek Road  
Campbellsville, KY 42718

## Course Description:

The **Swiftwater Operations Course** is designed to equip emergency responders with the essential skills required for safe and effective operations in swiftwater environments. This course provides a combination of classroom instruction and hands-on training in real-world water rescue scenarios.

## Topics Covered:

- ✓ Hydrology & Water Dynamics
- ✓ Personal Protective Equipment (PPE) & Gear
- ✓ Shore-Based Rescue Techniques
- ✓ Rope Systems & Throw Bag Deployment
- ✓ Scene Assessment & Incident Command in Water Rescues
- ✓ Self-Rescue & Victim Extraction Techniques

## Who Should Attend?

Firefighters, EMS personnel, law enforcement, and other first responders seeking to enhance their water rescue capabilities. No prior swiftwater experience is required.

## Registration Information:
